

## THE KANSAS CITY ACES – ROCK AND SOUL REVUE

*Available for Immediate Bookings*

The KC Aces were born in 2007 of necessity when a tour of Kansas City's local club scene revealed the need for a smokin' pro-grade classic show band that didn't compromise. When the Aces take the stage, you'll hear the classics all over again – but in a fresh new way. The fluid, time-tested sounds of Rod Stewart, Joe Cocker, Van Morrison, Bob Dylan, and Mitch Ryder and other artists that matter come alive in your club - as you and your patrons relive the songs and music you wish your radio station would play more often.

The pedigrees are impeccable: if you've had your eyes open, you've already run into some of the Aces gearing up to grind out classic sounds for award-winning blues and party favorites like The Hipnotics, Boko Maru, and Nervous Rex, and for legendary club projects like Duke Elephant, Yellow Brick Road, & Lupe. You've heard them play on studio recordings and seen profiles in the local media.

The KC Aces band: classic presentation, timeless sound, and effortless execution. Finally, a Kansas City band you'll never forget. You won't want to miss the KC Aces - again and again.
